

**STATE OF ILLINOIS  
ILLINOIS COMMERCE COMMISSION**

Illinois Power Agency	)	
	)	ICC Docket No. 21-_____
Petition for Approval of the 2022 IPA	)	
Electricity Procurement Plan Pursuant to	)	
Section 16-111.5(d)(4) of the	)	
Public Utilities Act	)	

**VERIFIED PETITION FOR APPROVAL OF THE ILLINOIS POWER AGENCY’S 2022  
ELECTRICITY PROCUREMENT PLAN PURSUANT TO 220 ILCS 5/16-111.5(d)(4)**

Pursuant to the authority granted by the Illinois Power Agency Act, 20 ILCS 3855/1-5, *et seq.*, and the Illinois Public Utilities Act, 220 ILCS 5/1-101, *et seq.*, the Illinois Power Agency (“IPA” or “Agency”) hereby submits to the Illinois Commerce Commission (“Commission” or “ICC”) for consideration and approval its proposed plan for the procurement of electricity for certain customers of Ameren Illinois Company (“Ameren Illinois”), Commonwealth Edison Company (“ComEd”), and MidAmerican Energy Company (“MidAmerican”) (collectively referred to as the “Utilities”) through the Electricity Procurement Plan for the period of June 2022 through May 2027 (the “2022 Plan” or “Plan”) accompanying this Verified Petition.

The 2022 Plan sets forth recommendations related to the procurement of electricity, capacity, and associated transmission services to meet the load requirements and supply needs of eligible retail customers<sup>1</sup> served by the Utilities. The Plan is designed to meet the statutory mandate “to ensure adequate, reliable, affordable, efficient, and environmentally sustainable electric service at the lowest total cost over time, taking into account any benefits of price stability.” 220 ILCS 5/16-111.5(d)(4).

---

<sup>1</sup> “Eligible retail customers” are defined in Section 16-111.5(a) of the Public Utilities Act as “those retail customers that purchase power and energy from the electric utility under fixed-price bundled service tariffs, other than those retail customers whose service is declared or deemed competitive under Section 16-113 and those other customer groups specified in this Section, including self-generating customers, customers electing hourly pricing, or those customers who are otherwise ineligible for fixed-price bundled tariff service.” 220 ILCS 5/16-111.5(a).

In accordance with Section 16-111.5(d)(3) of the Illinois Public Utilities Act (“PUA”), the Commission is required to enter its order confirming or modifying the Plan on or before December 28, 2021. The IPA respectfully requests that the Commission confirm and approve the 2022 Plan submitted contemporaneously with this Petition.

## **PROCEDURAL BACKGROUND**

In accordance with Section 16-111.5(d)(2) of the PUA, and after timely receipt of the Utilities’ load forecasts on or before July 15, 2021, the IPA posted its draft of the 2022 Electricity Procurement Plan to its website on August 16, 2021 (hereinafter the “Draft Plan”). *See* 220 ILCS 5/16-111.5(d)(2). Utilities and other interested parties were given thirty days following the date of the posting to provide comments to the IPA on the Draft Plan, with such comments required to be “specific, supported by data or other detailed analyses, and if objecting to all or a portion of the procurement plan, accompanied by specific alternative wording or proposals.” 220 ILCS 5/16-111.5(d)(2). The IPA had fourteen days following the end of the 30-day review period to revise the Draft Plan as necessary based on the comments and to file the Plan with the Commission. *See* 220 ILCS 5/16-111.5(d)(2). The accompanying Plan represents that filing.<sup>2</sup>

Following submission of the 2022 Plan, within five days, any person objecting to the Plan may file its objection with the Commission. 220 ILCS 5/16-111.5(d)(3). Objections to the 2022 Plan are thus required to be filed with the Commission in the resulting docketed proceeding by Monday, October 4, 2021, and any party seeking to appear or intervene should do so prior to submitting objections.

---

<sup>2</sup> In addition to revisions based on public comments, the Agency also updated the Plan to reflect statutory changes resultant from Public Act 102-0662.

## COMMENTS ON THE DRAFT PLAN

As required by the PUA, the IPA was required to hold at least one public hearing within each utility's service area to receive public comment on the Draft Plan. 220 ILCS 5/16-111.5(d)(2). Due to the ongoing COVID-19 global health pandemic, these three public hearings were held virtually over the Zoom platform on September 3, 2021, with the participation links for those hearings published within the notice of the Draft Plan's release. As with many past years, no parties provided public comments at the three public hearings held by the IPA. Written comments were only received from Ameren Illinois,<sup>3</sup> which offered a typographic correction to the Draft Plan that the IPA has adopted in full in the filed version of the 2022 Plan.

## PROCEDURAL STEPS

As discussed in the Procedural Background section above, within five days of the filing of the Plan, any person objecting to the Plan may file an objection with the Commission.<sup>4</sup> 220 ILCS 5/16-111.5(d)(3). As with past years, parties may file objections based on alternative policy recommendations or legal arguments, and the Commission may take those written objections into consideration in approving or modifying the Plan in accordance with its authority under Section 16-111.5 of the PUA. In addition, the Commission has ten days from the filing of objections to determine if a hearing is necessary.<sup>5</sup> 220 ILCS 5/16-111.5(d)(3). At this time, based on the

---

<sup>3</sup> Comments received on the Draft Plan can be found on the IPA's website: <https://www2.illinois.gov/sites/ipa/Pages/DraftProcurementPlanComments2021.aspx>.

<sup>4</sup> Objections to the Plan are thus due by Monday, October 4, 2021.

<sup>5</sup> In the past, the Commission has interpreted Section 16-111.5(d)(3) as requiring a Commission determination by 10 days after Objections are due (see, e.g., Docket No. 12-0544, Notice of Administrative Law Judge Ruling dated October 10, 2012, wherein the determination came 12 days after the filing of the annual procurement plan and 7 days after objections were due); if the Commission determines that this is the appropriate deadline, it must rule on a hearing by Thursday, October 14, 2021.

comments that were submitted in response to the Draft Plan, the IPA does not believe a hearing is necessary to consider or approve the 2022 Plan.

### **PROPOSED BRIEFING SCHEDULE**

In prior years, the presiding Administrative Law Judge has instituted a briefing schedule by issuing a Notice to all parties approximately one week after the commencement of the docket.

For consideration of the 2022 Plan, the IPA proposes the following briefing schedule:

- Responses to objections must be filed and served by Monday, October 18, 2021;
- Replies, if any, shall be filed and served by Wednesday, October 27, 2021;
- The expected date for the ALJ's Proposed Order is Wednesday, November 10, 2021;
- Briefs on Exceptions must be filed and served by Wednesday, November 17, 2021; and
- Reply Briefs on Exception, if any, must be filed and served by Wednesday, December 1, 2021.

This proposed schedule largely mirrors the schedules utilized for prior annual IPA procurement plan approval proceedings, including Docket No. 20-0717, approving the 2021 IPA Electricity Procurement Plan; Docket No. 19-0951, approving the 2020 IPA Electricity Procurement Plan; Docket No. 18-1564, approving the 2019 IPA Electricity Procurement Plan; and Docket No. 17-0392, approving the 2018 IPA Electricity Procurement Plan.

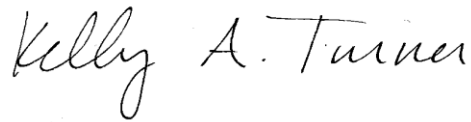

## CONCLUSION

The Illinois Power Agency's 2022 Annual Electricity Procurement Plan is consistent with the requirements of the Public Utilities Act and the Illinois Power Agency Act, meets the needs of the customers it serves, and should be approved by the Commission. The IPA reserves the right to file responsive comments and any corresponding edits to its 2022 Plan, and respectfully requests the Plan's approval in this proceeding.

Dated: September 29, 2021

Respectfully submitted,

Illinois Power Agency
